Castration Tool Castration Bander for Tail Docking Fits Bull,Calves, Goats, Sheep, Easy Application

The tail ring is usually made of Special Pure Latex ,Silicone and is used by placing it around the base of the livestock's tail to hinder blood circulation, causing the tail to gradually shrink and eventually fall off This method is simple and effective, with no bleeding, fast healing, and good results.

There are two different castration rings for different animals.

Model:HL-Q27B

Material:special pure latex

Usage:Castrating or Cutting Tail

Animal: lambs, piglets or other livestock

Castration rings, Made of special pure latex material, non rubber, sturdy and strong toughness, durable and long service life

Model:HL-Q27C

Material:Silicone

Usage:Castrating or Cutting Tail

Animal: calf

Castration rings, Made of silicone material, sturdy and strong toughness, durable and long service life

Note: Pure manual measurement, if there is any error, please refer to the actual product

This type of tail docking and castration ring can be used for tail docking and animal castration in combination with tail docking forceps.It has the characteristics of simple postoperative treatment, no bleeding and no side effects.
